

Why You Should Own a Maxwell

Comfort

First, because it is a comfortable riding car. Plenty of room for five people; deep, soft cushions; springs made of the best spring steel, scientifically heat-treated, accurately suspended and balanced. You will always be comfortable in a Maxwell.

Appearance

Second, because the Maxwell is a trim, smart, good-looking car.

Many makers of heavy, high priced cars, as you know, have copied the general lines, the shape of the body and hood of the Maxwell. This is more of a compliment than an infringement.

Service

Third, because the Maxwell, being a product of thirteen years evolution, is so designed and manufactured that it gives unfailing, consistent and satisfying service to thousands of owners.

Maxwell cars are made of the best materials that money and brains can buy—and they are made right. You can get out of any car only what is put into it.

Low First-Cost

Fourth, because you get everything in a Maxwell that you can get in any car and you get it for less money.

The answer to this is that the Maxwell is a light car and it is built in enormous quantities. The Maxwell Co. is one of the three largest producers of high grade motor cars in the world.

Low After-Cost

Fifth, because the Maxwell will give you more miles per dollar than any car built.

We say this without hesitation or doubt. It is our honest belief and we are willing to prove it by Maxwell owners, by comparison with any other car or by any other way you suggest or prefer.

The Maxwell will please you. *We know it will.* Let us arrange for a demonstration and we'll take the responsibility of satisfying you completely.
